EDUCATION

- **Bachelor of Science in Electronic and information engineering** Sep.2015 - Jul.2019
School of Information Science and Engineering, Wuhan University of Science and Technology Wuhan, China
 - Bachelor's thesis: Super-resolution Reconstruction of Images based on Convolutional Neural Networks (translated).
 - Excellent graduation thesis award.
- **Master of Science in Communication and Information System** Sep.2020 - Jul.2023
School of Computer Science, Wuhan University Wuhan, China
 - Rank 1st in the graduate entrance examination.
 - Researched at National Engineering Research Center For Multimedia Software.
 - Advisor: [Ruimin Hu](#), Co-advisor: [Zheng Wang](#).
 - Research directions: fraud detection, graph data mining, graph neural network, social network.
 - Master's thesis: Telecom Fraud Detection based on User Social Interaction Analysis (translated).

EMPLOYMENT

- **Research Assistant** Oct.2023 - Feb.2024
German Research Center for Artificial Intelligence (DFKI) Remote
 - Advisor: [Prof. Sebastian Vollmer](#)
 - Research group: Data Science and its Applications (DSA).
 - Research directions: **Biomedical graph data mining**.

TEACHING AND REVIEWING

- **Undergraduate course: Advanced Language Programming** Feb.2021 - Jun.2021
Teaching Assistant Wuhan, China
 - Graded undergraduate programming assignments.
 - Assisted students to team up to complete the term project (mainly C++).
- **Undergraduate thesis guidance** Dec.2020 - May.2021
Mentor Wuhan, China
 - Guided 2 undergraduate students on literature research, programming, and thesis writing. The research direction is about social network.
 - 1 of them got a grade of A+ (nearly 15%).

PROJECTS

- **curATime: Atherothrombosis cluster and individualized medicine** Oct.2023 - Feb.2024
Research Collaborator Remote
 - Contributed to design deep learning models for multi-omics data.
 - Participated in regular meetings and discussions with the project team.
- **Eventful: timely models for individual & societal health** Oct.2023 - Feb.2024
Research Collaborator Remote
 - Shared available social science research content and methods.
 - Investigated the latest research on event detection.
- **National Key R&D Program of China** Sep.2020 - Dec.2022
Student Participant Wuhan, China
 - **Programming.** Designed a personalized influence metric for user role information based on the Pagerank model, implemented by JAVA; **Visualization.** Designed the visualization system implemented by Vue(Javascript) + Django(Python); **Writing.** Complete report writing.
- **Joint project of National Natural Science Foundation of China** Sep.2020 - Mar.2022
Student Participant Wuhan, China
 - **Title.** Three-dimensional Spatial Identity Computing Theory and User Portrait and Location Technology (translated); **Research Task.** Researched on how to find high-influential users in complex social networks. **Outputs.** One conference paper[2].
- **Joint project of National Natural Science Foundation of China** Feb.2022 - June.2023
Student Participant Wuhan, China
 - **Title.** Key Technology Research on Natural Social Security Behavior Understanding and Intelligent Early Warning(translated). **Research Proposal Writing:** Researched literature, proposed research content, and discussed the feasibility. Finally, we successfully applied for the grant. **Outputs.** One conference paper[1].

Patents

- 1) A social relationship mining method based on interaction graph propagation (first student inventor). China Patent. CN202210422953.1. 2024 Granted.
- 2) Fraud detection method and device based on correlation fraud awareness (first student inventor). China Patent. CN202310244679.8. 2023 Pending.
- 3) A method and system for location place prediction for missing POI (co-inventor). China Patent. CN202211033841.3. 2022.
- 4) Missing POI identification method (co-inventor). China Patent. CN202210601769.3. 2022.

TECHNICAL SKILLS AND INTERESTS

Languages: IELTS Overall 6.5, Writing 7, Reading 7, Listening 6, Speaking 6.

Programming language: Python (master), L^AT_EX(master), Javascript, C++.

Frameworks: Pytorch, Pytorch geometric, DGL, Networkx, Sklearn, Matplotlib.

Soft kits: Jupyter notebook, Pycharm, Overleaf, Powerpoint.

Cloud/Databases: Github, OneDrive, Google Drive&Colab.

Amateur interest: Swimming, Fitness, Skiing (beginner).

ACADEMIC SERVICE

- Reviewer.** Journal of Neural Computing & Applications. 2023
- PC reviewer.** Neurips. 2024

ACHIEVEMENTS

- Competition.** Wuhan University 8th "Internet+" Innovation and Entrepreneurship Competition. 2022
 - 3rd prize.
 - **Title:** Anti-telecom Fraud Big Data Platform Based on Edge-Cloud Collaboration. (translated)
- Scholarship.** Wuhan University Graduate Student Academic Innovation Award. 2023
 - **2nd prize** (15 in School of CS Nomination).
- Competition.** China Mobiles Wutong Cup Big Data Innovation Competition. 2023
 - 2nd prize/place (Data Application Track). (**China Daily Newspaper**, **Sina News**)
 - Presenter
